MG3 Hybrid+

Are you ready to feel good?

100%

7 YEAR WARRANTY

The new MG3 Hybrid+

7 YEAR WARRANTY

Enjoy the best of both worlds

The new MG3 Hybrid+ has it all. Giving you the joy of pure electric driving and the reassurance of petrol power. Seamlessly switching between modes to provide the most economical and refined drive at all times.

That means the MG3 Hybrid+ is ideal for nipping around town, or heading up the motorway for a well-earned break. Plus, without the need to plug in to charge, you don't need to find off street parking!

Bursting with smart features

The spacious interior is packed with intelligent technology, including our MG Pilot Safety Systems and MG iSMART app connectivity. And it all comes with the peace of mind of our 7-year warranty.

A smooth drive, smart design, low running costs, agile looks - that's a feel good you just can't hide.

Built for joy

Everything about the new MG3 Hybrid+ was designed to put a smile on your face.

Modern styling

The MG3 Hybrid+ bristles with agile, athletic style from every angle. Open the door and discover a sophisticated interior generously equipped with premium features and intelligent safety systems.

Advanced performance

The dedicated hybrid engine works in harmony with the high capacity battery. The result? Low fuel consumption, low CO2 emission and class-leading power and performance. Not to mention a quiet, comfortable drive every time.

A personal touch

How would you like your MG3 Hybrid+? There's a wide selection of choices, including three trim levels, Essence, Excite & Exclusive, and six attention-grabbing paint colours.

Athletic looks

From the bold grille all the way down to the smooth spoiler and light-trailed taillamp, the MG3 Hybrid+ is alive with agile style.

It makes its presence felt instantly with the black wide-open grille and headlamps with integrated low and high beams that offer 11 powerful LEDs between them. Meanwhile, the sleek, compact body rests on 16” five-spoke alloy wheels*, designed to enhance aerodynamics as well as looks.

This beautifully crafted design translates MG’s classic style into a compact, athletic look that’s perfect for today’s drivers.

*Only available on Excite and Exclusive trims.

Refined interior

Practical interior styling

Discover generous cabin space inside the slim profile of the MG3 Hybrid+. At the heart of the sophisticated all-black interior are leather-style front seats that give you 6-way adjustability for ultimate comfort. You're surrounded by high-gloss panels and chrome detailing for added refinement, while the multi-functional soft-touch steering wheel invites you to take control.

Plenty of space

The MG3 Hybrid+ is also brimming with no less than 25 different smart storage solutions. Including an adjustable cup holder and an armrest tray at the front that both flex to the perfect fit. Plus, ample boot space, and the option to lower the rear seats.

Smart hybrid power

The new MG3 Hybrid+ is the latest addition to the hybrid car market, giving you all the benefits of petrol power along with economical electric driving. This smart combination maximises efficiency for short city trips and long out-of-town journeys alike. And it's perfect if you want to cut your emissions without going fully electric.

Dual power

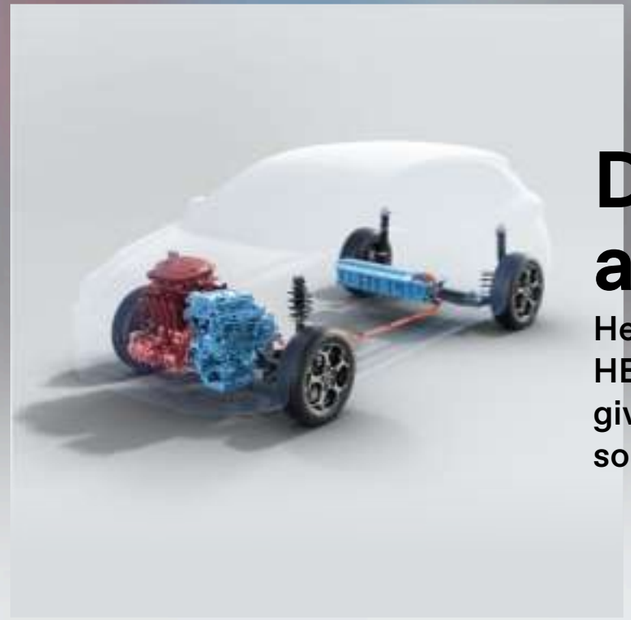
New to electric? This is a great place to start. Enjoy smooth, quiet electric performance without worrying about running out of battery. Your petrol engine will be there with the power you need.

Better for the environment

Shrink your carbon footprint by using fewer fossil fuels - and create zero tailpipe emissions in fully electric mode.

Lower running costs

You'll spend less money at the pump, and the lower emissions means less money spent on road tax.



Driving with a big PLUS

Here's how our advanced HEV Plus hybrid system gives you a better drive on so many levels.

P

Performance

The 100kwh electric motor and 75kwh dedicated hybrid engine deliver more power as well as seamless electric torque at city speeds, perfect for urban commutes. Giving you great overall performance without having a negative impact on fuel economy and emissions.

L

Low

With just 100g/km of CO2, your emissions are far lower than a comparable petrol car – and you could save on tax and low-emission zone fees. The MG3 Hybrid+ also keeps things low when it comes to running costs, with just 4.4L/100km.

U

Ultra-efficient

The MG3 Hybrid+ is designed to leave the rest behind. It's one of the most efficient hybrid models in its class, thanks to the quick response motor and 3-speed hybrid transmission.

S

Smooth

The MG3 Hybrid+ gives you the instant response and effortless acceleration of a fully electric vehicle. Thanks to the high-capacity 1.8kwh battery (larger than many in the class), you can feel more EV more of the time. When it comes to town driving, for example, being in EV mode transforms stop-start traffic into a smooth, stress-free experience.

When it comes to town driving, for example, being in EV mode transforms stop-start traffic into a smooth, stress-free experience.

Intelligent technology

Technology is smartest when it puts people at its centre. In the MG3 Hybrid+, you'll find all the controls you need at your fingertips.

10.25" infotainment screen

The floating infotainment screen comes with an HD display and intuitive design, so you can access everything from satnav directions to your favourite music while driving safely. Apple CarPlay™, Android Auto™, Bluetooth, DAB radio and more...it's all there with a tap.

7" driver display

The highly intuitive 7" HD virtual cluster displays clear, concise driving information, while making it easy to control your phone, music and other infotainment.

360° camera*

Parking spots and narrow streets are no hassle with four HD wide cameras to give you an all-round view. Meanwhile, ultrasonic radar warns you about obstructions, and Dynamic Reversing Assist helps you park at the perfect angle.

MG iSMART

The technology of MG iSMART puts a wide variety of your car's features, such as finding your vehicle, remote locking and unlocking, and vehicle status check at your fingertips, elevating your driving experience.

*Only available on Exclusive Model

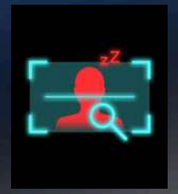
MG PILOT

The MG Pilot suite of high-tech driver assistance technology gives you added confidence on the road.

Intelligent Speed Limit Assist

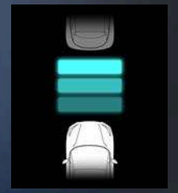
Lane Keep Assist (LKA)

Traffic Sign Recognition



Drive Attention Alert

Cruise control features



Adaptive Cruise Control (ACC)

Intelligent Cruise Assist (ICA)

Collision avoidance

Forward Collision Warning

Active Emergency Braking (AEB)

Rear driving assistance

Rear Driving Assist*

Rear driving assist feature includes the following:

Lane Change Assist*

Rear Cross Traffic Alert*

Blind Spot Detection*

For more information, please visit your local MG dealer.

*Only available on Exclusive model

MG Pilot

The MG Pilot suite of high-tech driver assistance technology gives you added confidence on the road. A selection of warning and alert features assists the driver, maintaining safety and simplifying everyday driving.

Standard features.

Adaptive Cruise Control (ACC)

Adaptive Cruise Control monitors the road ahead. As long as the road ahead is clear, the MG3 will maintain the speed set by the driver. If the system spots a slower vehicle within its detection range, it gently reduces speed by releasing the accelerator or actively engaging the brake control system. If the vehicle ahead speeds up or changes lanes, the car will automatically accelerate back to the driver's desired speed.

Traffic Jam Assist (TJA)

When Adaptive Cruise Control is turned on, Traffic Jam Assist continuously analyses the speed of the surrounding vehicles and compares it with its own driving speed. If the system detects dense traffic or a traffic jam at speeds below 55kmph, the driver can activate this function. The MG3 will automatically follow the vehicle in front, controlling its acceleration, braking and steering within the same lane.

Intelligent Speed Limit Assist & Traffic Sign Recognition

The MG4 EV will actively detect speed limit signs and alert the driver of the current speed limit through a symbol on the digital display. The symbol acts as a reminder to the driver, reducing the risk of exceeding the speed limit. Traffic Sign Recognition means you can always be confident of the speed limit – with the option to set a speed limiter.

Active Emergency Braking (AEB)

At speeds below 19kmph, the car will use Active Emergency Braking to automatically avoid a collision with a vehicle, bicycle or pedestrian. At speeds above 19kmph, the system will reduce the likelihood or mitigate the severity of an accident.

Intelligent High Beam Assist

When the headlight high beam is set to the AUTO position, intelligent high beam assist automatically switches to low beam when it detects a vehicle ahead. This enables drivers to maximise the use of high beams, making night-time driving safer without the risk of dazzling oncoming traffic.

Lane Keep Assist (LKA)

An onboard camera detects lane markings ahead and monitors the MG3's position in its lane. When the function detects the car is about to move out of its lane unintentionally, it warns the driver using a visual, audible, and steering wheel vibration. The car will also control the steering to keep within its lane.

Available on Exclusivemodels.

Blind Spot Detection (BSD)

This system keeps a lookout to help you change lanes safely. A radar sensor serves as BSD's electronic eye, registering objects in hard- to-see areas. Whenever there is a vehicle in the driver's blind spot, a visual signal will show next to the door mirror.

Lane Change Assist (LCA)

Changing lanes always requires concentration to ensure you have enough space to gently manoeuvre your vehicle. However blind spots can prevent the driver from having a clear idea of when it is safe to move. The Lane Change Assist (LCA) provides an additional, visible signal alongside Blind Spot Detection to alert the driver to a potential hazard.

Door Open Warning (DOW)

When the vehicle is stationary, the Door Opening Warning system alerts the driver if there is a risk of collision if the door is opened. The system is able to monitor the sides and rear of the vehicle, giving a warning if an object is detected.

Rear Cross Traffic Alert (RCTA)

Everyone can agree that parking is a nightmare, but Rear Cross Traffic Alert (RCTA) makes it a little easier. It alerts the driver to any vehicle approaching them from either side when reversing so that they know when to reverse safely to prevent any collisions.

Connect and control

The innovative MG iSMART system is a beautifully simple way to elevate your driving experience, delivering a new level of control and interaction with your MG3 Hybrid+.

The MG iSMART system integrates car, internet and user communication. The dedicated MG smartphone app helps you find your parked car, check its status and monitor fuel levels.

MG iSMART also looks after your MG3 Hybrid+ when you're not in it. You can pre-start the climate control system to cool or heat the car before you step inside.

A colour just for you

The MG3 Hybrid+ won't just make you feel good, you'll look good too with a choice of six attention-grabbing colours - with standard, metallic and tri-coat options for a unique look. Get ready to demand attention.

BRILLIANT BLUE*
Metallic Paint

BLACK PEARL*
Metallic Paint

DYNAMIC RED*
Tri-Coat

ARCTIC WHITE
Standard Paint

MONUMENT SILVER*
Metallic Paint

CHARCOAL GREY*
Metallic Paint

*Tri-coat and metallic paint added at an extra cost.

ESSENCE

- MG Pilot driver assistance systems
- Remote cental locking with fold-away key
- 10.25" floating colour touchscreen with Apple CarPlay™ and Android Auto™
- MG iSMART user app
- DAB+ radio with AUX/USB and MP3
- 4-speaker audio system
- Satellite navigation with speed limit recognition
- Front and rear electric windows
- Driver's 6-way adjustable seat
- Electric parking brake with Auto-Hold
- Air conditioning
- Bluetooth telephone and audio streaming
- LED daytime running lights
- Rear parking sensors
- Rear Parking Camera
- 15" Steel wheels

7 YEAR WARRANTY

EXCITE

- MG Pilot driver assistance systems
- Auto fold and heated outside mirrors
- 10.25" floating colour touchscreen with Apple CarPlay™ and Android Auto™
